

<b>Project Name</b>	Cumberland Towers
<b>Place</b>	Ipswich
<b>Contractor</b>	Lawtech
<b>System</b>	Wall System 1
<b>Completion</b>	March 2018

Since March 2018, residents of Cumberland Towers have been enjoying the completion of £1.8m of repairs to their tower block. The works comprised of a new heating system, energy-efficient windows, balcony screens, roof insulation and SPSEnvirowall external wall insulation.

Located close to Ipswich Town Centre, Cumberland Towers, a sheltered home for senior citizens has been given a makeover and brought up to modern standards and is now fit for purpose.

Contractors, Lawtech carried out the installation of SPSEnvirowall's Wall System 1 with mineral wool and silicone render finish, including a Brickshield system to the tower's first two floors, making the tower a renewed and more attractive landmark for the area.

#### The Benefits of SPSEnvirowall's Wall System 1:

- Solutions for most masonry substrates available
- Extensive range of finishes available
- A range of insulation options offered
- Extremely cost effective
- Thermally enhances and protects any facade
- Suitable for low and high rise construction
- A long track record in refurbishment and new build construction
- BBA approved certification for all system options

#### SPSEnvirowall CPD
